

PHILIP AKINNUROJU

ICT Support Analyst

+44 7305 212674 | philip.akinnuroju101@gmail.com |

PERSONAL STATEMENT

Enthusiastic, detail-focused ICT Support Analyst with hands-on experience delivering fast, friendly and effective support across hardware, software and systems, including Active Directory, Microsoft Exchange and PowerShell environments. Skilled at logging, updating and monitoring incidents and requests to help meet service levels, keeping digital records accurate and reliable, and preparing statistical reports to support management decision-making. Comfortable running routine checks and structured triage to diagnose issues, with a genuine interest in supporting ICT system security and data protection. A positive team player who works confidently on own initiative and prioritises effectively in a busy service desk environment.

KEY SKILLS

- Responsive ICT support for hardware, software and systems, using first-line fixes to resolve issues quickly and escalating where needed
- Logging, updating and actively monitoring incidents via SolarWinds Service Desk, keeping progress visible against agreed service levels
- Keeping digital records accurate and reliable, including asset data, user accounts and access rights via Active Directory
- Preparing statistical reports and data spreadsheets to support management decision-making and identify trends
- Structured testing and triage of software, systems, applications and equipment to diagnose issues and suggest improvements
- Supporting the security and integrity of ICT systems, applying good practice and helping meet data protection requirements
- Strong communication and customer service skills; confident working on own initiative in a busy service desk environment

TECHNICAL SKILLS

- Active Directory | Microsoft Exchange | PowerShell | Microsoft Windows | Microsoft Office Suite | SolarWinds Service Desk

WORK EXPERIENCE

IT Support Analyst | Rhubtech (remote)

July 2025 – Present

- Provided first-line support for hardware, software and systems issues, resolving incidents at first point of contact and escalating complex cases to second/third line where required
- Logged, updated and monitored incidents and requests using SolarWinds Service Desk, keeping progress visible and helping ensure response and resolution stayed within agreed service levels
- Maintained accurate records of user accounts, permissions and IT assets via Active Directory, supporting reliable and up-to-date system data
- Prepared regular statistical reports and data spreadsheets to support management decision-making and highlight recurring issues
- Carried out routine checks on software, systems and equipment, using structured troubleshooting to diagnose faults, applying good practice around confidentiality and data protection

IT Security Analyst (Trainee) | Optima-IT, United Kingdom

June 2022 – June 2025

- Supported the monitoring of systems and alerts to help identify and triage potential security issues, escalating as appropriate
- Assisted with logging and tracking security-related incidents and requests, maintaining clear documentation of actions taken
- Helped apply and maintain access controls and good security practice across systems, supporting confidentiality and data protection requirements
- Developed foundational knowledge of security good practice, later built on through MSc study in Cybersecurity and Digital Forensics

Warehouse Operative | Central England Co-operative, United Kingdom

Feb 2021 – Feb 2024

- Worked reliably within a fast-paced, deadline-driven team environment, delivering consistent accuracy, attention to detail and strong prioritisation skills
